

AISHWARYA SHUKLA

CREATIVE TECHNOLOGIST • DIGITAL ARTIST • AI / ML & DATA

+91 9205830869 • aeshu009@gmail.com • [Portfolio](#) • [LinkedIn](#) • [GitHub](#)

Creative technologist working at the intersection of digital art, real-time visual systems, and AI/ML. I build machine-perception tools, interactive visuals, and data-informed experiences for moving image and live performance.

EXPERIENCE & LIVE PRACTICE

Founder & Creative Technologist | FLY — Visual Arts, Events & Creative Media • 2025–Present

Lead visual direction, event concepts, and creative-media production for an independent visual-arts and events practice.

Live Visual Artist | Terraspace — Event Collaborations • 2025–2026

QRAVE Long Form (May 2026); QRAVE Market of Mystic (Feb 2026); BudXLoft Obscure Arts (Nov 2025) — live and interactive visuals for music and multi-artist programmes.

Data Science Intern | Atlas • Remote

SELECTED WORK

VISUAL / CREATIVE SYSTEMS

Live Systems & TouchDesigner Practice

REAL-TIME VISUALS • PERFORMANCE

Interactive visual systems using TouchDesigner, Kinect body tracking, point clouds, procedural motion, and audio-reactive rendering.

TERRA Visual Systems

BROWSER-BASED VISUAL APPS

Three visual experiments for image, video, and webcam input, exploring generative materials and performance-oriented effects.

AI / ML & DATA

Semantic Segmentation Visual Lab

COMPUTER VISION • REAL-TIME RENDERING

Image, video, and webcam input → AI semantic segmentation → per-class material assignment → real-time creative rendering for export and live performance.

TERRA-Cypher

MOBILENETV2 • FER2013 • OPENCV

Real-time emotion-detection visual instrument with matrix/ASCII face rendering, radar HUD, and temporal prediction smoothing.

Azure CV + Finance A/B Testing

APPLIED AI • DATA ANALYTICS

Computer-vision workflows with Azure Cognitive Services; consumer-finance analysis using segmentation and hypothesis testing.

EDUCATION

BBA, Data Science & Analytics | Jain (Deemed-to-be University), Bangalore • Completed 2025 • Overall: 87%

Machine Learning in Finance | Seoul National University, Seoul, South Korea • International Summer Program • Jun–Jul 2024 • 3 credits

TOOLS & STRENGTHS

AI / ML: Python, PyTorch, CNNs, MobileNetV2, semantic segmentation, OpenCV, MediaPipe, Azure Computer Vision

Creative technology: TouchDesigner, Kinect, real-time rendering, creative coding, point clouds, OSC / MIDI, Blender, Houdini, Three.js

Data & web: Pandas, NumPy, scikit-learn, SQL fundamentals, model evaluation, React, Next.js, JavaScript

SELECTED CERTIFICATIONS

DeepLearning.AI: Sequence Models; Convolutional Neural Networks; Improving Deep Neural Networks; Neural Networks and Deep Learning; Structuring Machine Learning Projects. **Applied AI & data:** Codebasics Gen AI; Tata Group GenAI Data Analytics; British Airways Data Science; Microsoft Azure Computer Vision; Fundamentals of Signal Processing. **IBM:** Python for Data Science, AI & Development; React; Cloud Computing; HTML/CSS/JavaScript.
